

Greta Garbo
(Petersen / Simmonds. SOCAN).

I know you're at the peak of perfection girl
And everyone is looking at you
Trying hard to make a connection
But not quite getting through
Baby doesn't have time to see you
She wants to be alone go away
Just leave a little note with your best regards
And she'll get in touch someday

You ought to know by now, you fool
No Valentino is gonna rescue
Greta Garbo

I know you're in a state of confusion girl
You really got your head in a mess
I heard you took a really bad tumble
On the road to happiness
Baby's just a little hangover
She wants to be alone go away
She had so many so intentions
But threw them all away

You ought to know by now, you fool
No Valentino is gonna rescue
Greta Garbo

Poor Great Garbo
