

ROULETTE

Petersen/ Simmonds. SOCAN)

**Place your bet and dream about
diamonds and a fancy house
It's against all odds
if it is, so what
Let's go for broke**

**Don't you realise by now
Play that game and find out how
Someone stole your heart
Left you picking tips up
From the table
(Don't blame Vegas)**

**You didn't go to school for that
Guess he graduated from a different class**

**Days and nights that turn around
Showtime in a crazy town
The party never stops
Living life just like
the rich and famous**

**Hey Roulette spin the wheel again
Hoping this time lady luck
Won't have her eyes closed**

**One more time the wheel goes round
time for you to close it down
and for what it's worth
fortune doesn't owe you any favors
Don't blame Vegas
Don't blame Vegas**

**You didn't go to school for that
Guess he graduated from a different class
You got caught playing with the Jack of Hearts
Roulette**
